Kelly

THE REAL DEAL: If you think [Kelly Bensimon's](#) role on *The Real Housewives of New York City* is attention-grabbing, you should see her latest endeavor. The former model, author and socialite is causing a commotion yet again (but in a good way) with her eye-catching jewelry line, Kelly. While Bensimon's TV persona may be over-the-top, her accessory prices aren't. The line of pave pieces ranges from \$32 to \$336 and center around snakes, lariats and Indian princess-meets-[Studio 54](#)-inspired looks. Cat fights, however are not included.
